"SPOTTED" | WEEK MUNYON'S July : Corn: May :

Stock Market Ends it at a please Lower Level.

LESS CASH IS LYING IDLE

market sentimental effect on the whole market. The possibilities in the way of reduced expenditure for administration and of stability of rates for traffic from consolidation are canvassed with eager attention by dealers in securities. Pennsylvania was conspicuously affected and the long-sustained advance in the stock of its subsidiary company. Pittsburg. Cincinnatt, Chicago and St. Louis, is pointed to as evidence of closer relations to come. Burlington rose strongly on rumors of the ripening of the refunding plan of the condition of the treasury shows: TREASURY STATEMENT.

Washington, Feb. 5.—Today's statement of the ripening of the refunding plan and a pending increase in the dividend rate. General Electric, Lake Eric and Western preferred and Lackarrana and Western preferred and Lackarrana and Teserve, \$164,557,194 Western preferred and Lackawanna were markedly strong and Norfolk and West-ern preferred continued its upward movement. There was a reactionary tendency in the Erie and the Susquehanna and Western stocks on realizing. The recent gavance is accounted for by well defined reports of a plan for exchanging the Susreports of a plan for exchanging the Susquehanna stocks for an undetermined per centage of the Erie stocks. Great Northern preferred sold at a further decline of 2 points and was bid down still further, the various reports of plans for increased capitalization and distribution of the company's acumulated resources being so conflicting as to lead to the conviction that no plan has yet been formed. Although business was on a large scale and widely distributed, the fluctuations in price were exceedingly narrow outside special cases, the most important of which have been indicated.

The total sales of stocks today were The total sales of stocks today were

THE WEEK REVIEWTED. The stock market has been exceedingly 'spotty' all week, but has gradually "spotty" all week, but has gradually worked to a lower level of prices by realising anies. The ilquidation has not reached the proportions of a pressure to stop losses, except in a few cases. The market has rather been let down by easy stages, the descent regulated by the sustaining force of some marked strength by special stocks in each day's trading. Chesapeake and Ohlo, Cleveland, Cincinnati, Chicago and St. Louis, Louisville, Pennsylvania, Baltimore and Ohlo, North-Pennsylvania, Baltimore and Ohio, Northcash \$2,08,000. The loan increase and the demand for the high-priced usually dormand for the high-priced usually dorman stocks has been keen and a number of them show marked gains. Great Northern preferred is most conspicuous with a jump of 25 points. Manitoba, its subsidiary company, is up 11½ points. There has been an enormous absorption of bonds, especially of the middle and low-grade, issues at advancing prices. Rates for money have worked lower, in pite of the progressive withdrawal of povernment deposits in New York banks. The Friday afternoon rise served to oblice that remain are largely confined to fractions.

**Cash \$2,08,000. The loan increase and the cash addition do not account for the deposits and turned bears. The investment cash addition do not account for the deposits gain addition do not account for the deposits gain and more, too, as lost, the close being the below yesterday. Oats—Futures advanced early, but befords to finish this gain and more, too.

Oats—F The heavy increase of over \$11,000,000 in deposits of clearing house banks for the week marks the continued flow of funds on the market, but it is to be noted that

to this center and the withdrawal of government deposits must be allowed for in addition in estimating this movement. The three deposits are the excess reserve of the banks is down choice. \$4.75. expansion of nearly \$8,000,000 in leans, though heavy, falls far short of absorb-ing the total of the increased deposits. At different times during the week the market has been under the influence of aggressive strength in Chesapeake and Ohio, Baltimore and Ohio, Louisville, Pennsylvania, Northern Pacific preferred, the coalers, Union Pacific, and other less conspicuous stocks. Wide advances have occurred in some of the high-priced close-ly-held investment stocks, notably Great rihern preferred, which advanced an extreme N points, but reacted 4 points. The week's heavy profit-taking sales have been well absorbed and the outside participation in the market has grown. Many stocks have been at times below hist week's closing level and some prom-ment stocks end below, but the general level of the market is higher, principally result of the movement of yesterday and today. Gains generally range be-tween 1 and 3 points, with exceptions in active stocks up to a points.

BONDS. The bend market has continued to show the great activity and strength which it did in January. The total par value of

They are perfectly reliable have no Free Prescriptions. Free Cure Free Samples, or C. O. D. fake. They have \$250,000 capital, and guarantee t cure every case they treat or refund every dollar; or their charges may be deposited in a bank, to be paid to them when a cure is effected. Write them today. "Suite 765, Ramage building."

reserve, \$164,557,124. WEEK'S EXPORTS AND IMPORTS.

New York. Feb. 5.—The imports at the port of New York for the week were: Gold, \$1,049,803; silver, 65.837; dry goods, \$2.721,030; general merchandise, \$5.050,700. The exports of specie were: Gold, \$196,-635; silver, \$1,024,675.

THE BANK STATEMENT.
New York, Feb. 5.—The weekly statement shows the following changes: Sur-plus reserve, decrease \$287,285; loans, in-crease \$7,994,100; specie, increase \$995,400; legal tenders, increase \$1.012,600; deposits, increase \$11,343,300; circulation, decrease \$76,300. The banks now hold \$34,781,625 in excess of the requirements of the 25 per

New York, Feb. 5 .- The Financier says: "The statement of the New York clear-ing house banks for the week ending Feb-ruary 5 is notable, as reflecting the ability of the banks to absorb and put to more or less profitable use the immense accumulation of funds at the center. The aggregate deposits for the sixty-five insti-tutions are now nearly \$734,000,000. What this means will be better appreciated when it is stated that it is an increase of \$165,600,600 over the same week last year, and \$241,600,600 in excess of the deposit item for the similar period in 1896. The leans of the banks now stand about \$633,-700,000, which is \$136,000,000 higher than reported in 1896. Yet the banks now have in their vaults less than \$35,000,000 idle cash, as against \$54,500,000 one year ago Egg and \$40,000,000 two years ago. Clearly the banking situation, as regards demand, might be a great deal worse. Even concompared to the coalers and a might be a great deal worse. Even connumber of less prominent stocks have been thus employed at different times as pegs to stay the market. The downward course has in consequence been so gentle commercial needs shown in the currency and the general tendincy so obscured by a few judiciously distributed gains in crease in loans for the past six days was a few judiciously distributed gains in the currency of the coalers and the general tendincy so obscured by a few judiciously distributed gains in the currency of the coalers and a might be a great deal worse. Even connumber of less prominent stocks have been thus employed at different times as per part for the enormous totals, there is a considerable margin for legitimate commercial needs shown in the currency and the past six days which is practice of the coalers and a might be a great deal worse. Even connumber of less prominent stocks have been thus employed at different times as part for the enormous totals, there is a considerable margin for legitimate commercial needs shown in the currency and the great deal worse. Even connumber of less prominent stocks have been thus employed at different times as part for the enormous totals, there is a considerable margin for legitimate commercial needs shown in the currency and the great deal worse. a few judiciously distributed galus in each day's list that the interest of outsiders in the mbarket has scarcely been distributed, and they have absorbed a large institution only showing banks, one volume of holdings from professional hands. As a consequence each day's list that the interest of outsiders in the mbarket has scarcely been disturbed, and they have absorbed a large turbed, and they have absorbed a large volume of holdings from professional hands. As a consequence, the professional hands. As a consequence, the professional hands a lower level to buy back allower level to buy back allowers, and turned hears. The investment cash addition do not account for the discrepancy amounting

safety valve to check sudden fluctua-WEEK'S MARKET FOR WHEAT General Tendency Downward With Occasional Sharp Rallies.

Chicago, Feb. 5.-Last week was one

stion for a considerable period.

interests abroad are in the nature

of reaction in wheat, the general tendency of prices being downward, though several sharp railies occurred. The short interest which had apparently been almost eliminated during the early part of the closing week in January was increased heavily. Many longs also realized on their lines. The result of the week's trading was a net decline in May of the and in July of 2 cents. The close of the week, however, found the market in a firm position. Early in the week the market felt the effect of the heavy realizing of the week before and on Saturday and Monday a decline of 2% cents took place in May. Most of this was on Monday. There was a good deal short selling on the theory that the market was in for period of materially lower prices and he market was further weakened by delining foreign markets and a small visible decrease in this country. A sharp advance took place on Tuesday. Sudden development of strength at Liverpool and small stocks at that point caused a general covering movement. Late in the day prices weakened on a small world's visible increase where a decrease had been looked for, and the market ruled weak until the close of Thursday's session, relieved at times by support from the Lei ter interests. There was heavy selling by longs on Thursday and Leiter is believed to have materially increased his May holdings. Support from the same source on Friday, coupled with a good short demand and a demand in the northwest for low grades of wheat for milling on account of scarcity of high grades, caused a good raily and a strong closing. An hope of a cure, are being restored by them influential factor in Friday's trailing was the Argentine shipments, which were much smaller than looked for. The range

CHICAGO CAR LOTS. Today, Grade, Tomorrow,

With Big Increases in Deposits in New York Banks.

New York, Feb. 5.—Today's stock market was littled to a higher level by the conspicuous strength of a comparatively few stocks. It was noteworthy that the Vanderhitts, which gave the initial impetua to yesterday's advance, showed the effects today of profit-taking, Lake Shore lossing points and New York Central as small fraction. Michigan Central, after bounding upward at the opening, reacted cover a point, but closed with a substantial gain. The far-reaching importance of the merging of New York Central and Lake Shore and the prospects of additions to the plan continued to have a marked sentimental effect on the whole marked. The possibilities in the way of reduced expenditure for administration and of stability of rates for traffe from consolidation are canvasced with eager attention by dealers in securities. Pennsylvanila was conspicuously affected and the long-substained advance in the stock of the substdiary company. Pittsburg, Cincinnatt, Chicago and St. Louis, is pointed to as evidence of closer relutions to come. Burlington rose strongly on runnor of the ripening of the refunding plan and of the repease in the dividend.

LIVE STOCK MARKETS

CHICAGO. Chicago, Feb. 5.-Cattle-There was the usual Saturday lack of offerings in cattie, and the market was largely a nom-inal one. The few sales made were at yesterday's range of prices. The market this week has been a fairly strong one and prices have advanced 10@15c on beef steers, there being sharp competition for fat cattle. Sales were largely at \$4.250 5.10, the extreme range of prices being \$4.0055.40 for common to strictly choice. Hogs-There was an active demand for hogs and prices were up to yesterday's best time, prime heavy hogs fetching 34. best time, prime heavy nogs fetching 41.

From that figure sales were made all
the way down to \$1.0, the bulk of the
hogs crossing the scales at \$1.8567.924.

Sheep-Offerings of sheep and lambs
were light and prices were steady. Lambs
sold readily at \$1.7561.99 for common to
prime flocks, while sheep sold at \$3.556
4.75, fed westerns selling largely at \$3.89
4.60. Yearlings brought \$4.6961.25. There
was a good demand for feeding sheep
and lambs, but suitable lots were offered and lambs, but suitable lots were offered sparingly.
